

Generic RACI Template

Use this template to assign minimum ownership for a bounded AI-assisted workflow.

- **Sponsor** - authorizes scope, boundaries, and oversight expectations.
- **Task Owner** - performs the task or ensures the task is performed correctly.
- **Reviewer** - checks quality, completeness, and fitness for purpose before approval.
- **Approver** - accepts or rejects release or operational use.
- **Admin / Coordinator** - maintains records, tracks status, and supports workflow administration.
- **Legal / Data Reviewer** - provides specialist review where data, privacy, or legal concerns require it.

Template

Task	Sponsor	Task Owner	Reviewer	Approver	Admin / Coordinator	Legal / Data Reviewer	Notes
Define scope	A	R	C	I	C		
Set allowed AI use	C	R	C	A	I	C	
Draft output	I	R		I			
Review output	I	C	A	I	I	C	Reviewer is accountable for the review step before any approval decision.
Approve release or use	I	C	C	A	I	C	
Store record and status	I	C		I	R		

Notes

- Use one clear approver for each workflow.
- Where specialist review is required, add Legal / Data Reviewer as consulted or required before approval.
- Keep the template lean. Add rows only when they improve clarity.
